Association for Computing Machinery

Advancing Computing as a Science & Profession

We see a world where computing helps solve tomorrow's problems – where we use our knowledge and skills to advance the profession and make a positive impact.

Join an ACM Special Interest Group

Fill in the name and other details of your membership. When you get to the **ACM Membership Options**, you must choose one of the options that **includes the "Digital Library".** I suggest the $42 option.

ACM Membership Options

Please choose one of the following ACM Student Membership Options:

○ **Student Membership**

Includes all the benefits of student membership plus electronic subscriptions to *CACM* and *XRDS*.

Yearly Rate: $19.00 (USD)

○ **Student Membership PLUS Print *CACM* Magazine**

Includes all the benefits of student membership plus print and electronic subscriptions to *CACM* and *XRDS*.

Yearly Rate: $42.00 (USD)

○ **Student Membership with Digital Library PLUS Print *CACM* Magazine**

Includes all the benefits of student membership plus full access to the ACM Digital Library, and print and electronic subscriptions to *XRDS* and *CACM*.

Yearly Rate: $62.00 (USD)

○ **Student Membership PLUS Digital Library**

Includes all the benefits of student membership plus full access to the ACM Digital Library, a print subscription to *XRDS* and an electronic subscription to *CACM*.

Yearly Rate: $42.00 (USD)

Remember your ACM account name (this will *not* be your email address) **and password**. Once you have set up your membership, you will log in to myACM to access specific course materials.

Log in with your ACM account name (this is *not your e-mail* address) and password. You will have been assigned an account name.

Once you log-in, there will be a menu/list down the left side of the window. Explore the "Skillsoft Learning Collections" and "O'Reilly Learning Platform".

Once you are in myACM, the upper-right menu will change to show the available platforms. The platforms may require you to log-in again, but they use the same log-in as your ACM account.

Once into the learning platforms, do a search for "C Programming" and start exploring! Throughout the semester, specific items will be assigned for reading/viewing. You may wish to bookmark the log-in page for the platforms for quick access on later visits.
